### DETAILED ACTION

1. This communication is responsive to the amendments filed on October 25, 2006.

Applicant's amendments and remarks have been carefully considered.

2. On December 5, 2006, the examiner discussed with Jane Berman about a possible amendment to define the instant claimed invention over the applied art of record. Upon Applicant's agreement of the proposed amendment, the examiner would then conduct a final prior art search and finalize the patentability determination.

However, Ms. Berman was not able to agree to the proposed amendment at that time. Thus, a further rejection is made as set forth below.

3. Claims 1-3, 7 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 4, the expression "the profile of a rail foot" lacks antecedent basis.

In claim 1, line 5, it is not clear as to whether the "a smaller profile height" is the same as the "a smaller profile height" recited in line 4 of claim 1.

4. Claims 1-4 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Curtis (US 607,221).

Curtis discloses a transition rail having all the features as recited in the instant claims, including a first transition zone as shown at A in Figure II, and a second transition zone as shown at F in Figure II. Regarding the instant claimed profile of a rail foot of the first transition zone being kept constant, as recited in instant claim 1,

Art Unit: 3617

consider Figure II of Curtis, wherein, the thickness of the rail foot of the first transition zone appears to be kept constant as claimed.

Regarding the instant claimed zone (b), as recited in instant claim 3, consider the portion of the rail above tie C that is located between the rail portions at A and F as shown in Figure II of Curtis.

5. Claim 11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Regarding Applicant's arguments, note that the above ground of rejection is made so as to also directly/indirectly address Applicant's arguments.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark T. Le whose telephone number is 571-272-6682. The examiner can normally be reached on Mon-Fri (9-6), except day-off Wed.

Art Unit: 3617

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Samuel Morano can be reached on 571-272-6684. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
